

In 2020, guns became the leading cause of death for America's children and teens. Meanwhile, an Illinois gun manufacturer is launching an AR-15 for children called a JR-15. The more weapons out there in unsafe hands, the more we need red flag laws.

Red flag laws enable the public to take action. Join Safer Country's campaign to let people know. In Virginia, 18 other states, and Washington, DC, we can alert authorities and a court can order the temporary removal of guns from people who present a substantial risk of harm to themselves or others.
